## ABSTRACT:

PROBLEM TO BE SOLVED: To provide a medicinal composition enabling excellent treating compliance and convenience and larger satisfaction of pet owner.

SOLUTION: In this delicious medicinal composition for orally administering to companion animals, comprising a pharmaceutically active substance combined with a palatability-improving agent and a pharmaceutically permissible carrier in a pharmaceutically effective amount, the palatability-improving agent is derived from non-meat and non-fish and the medicinal composition exists in enough amount to make the medicinal composition delicious for companion animal, with the proviso that when the palatability-improving agent is yeast, the agent exists in an amount of about 2 to about 25 wt.% based on the delicious medicinal composition.
